

# What I should bring on a Lion's Ridge Retreat

Although there are no silly questions, let's get a few simple one's out of the way. Yes, we have electricity! Yes, the building is heated. Yes, there are real toilets. And finally, yes, you will be eating great food. We are looking forward to hosting you and your friends for adventures in Montana. Please keep in mind the following tips.

Lion's Ridge is located 15 miles outside of Bozeman Montana at an elevation of 6000 Feet. Please be prepared for quickly changing weather conditions. In the summer, temperatures range from the 80's at mid-day to the 40's at night. In the winter you can expect daytime highs of 20-40 degrees and lows of less than 0 degrees! Communication is possible via most cell service providers, but we do not have internet access. Ok, here's the list. Please call or e-mail if you have any questions. (Note: your group leader may have additional items you need to bring.)

Please bring:
